

# **Blue Explorer Key Features**

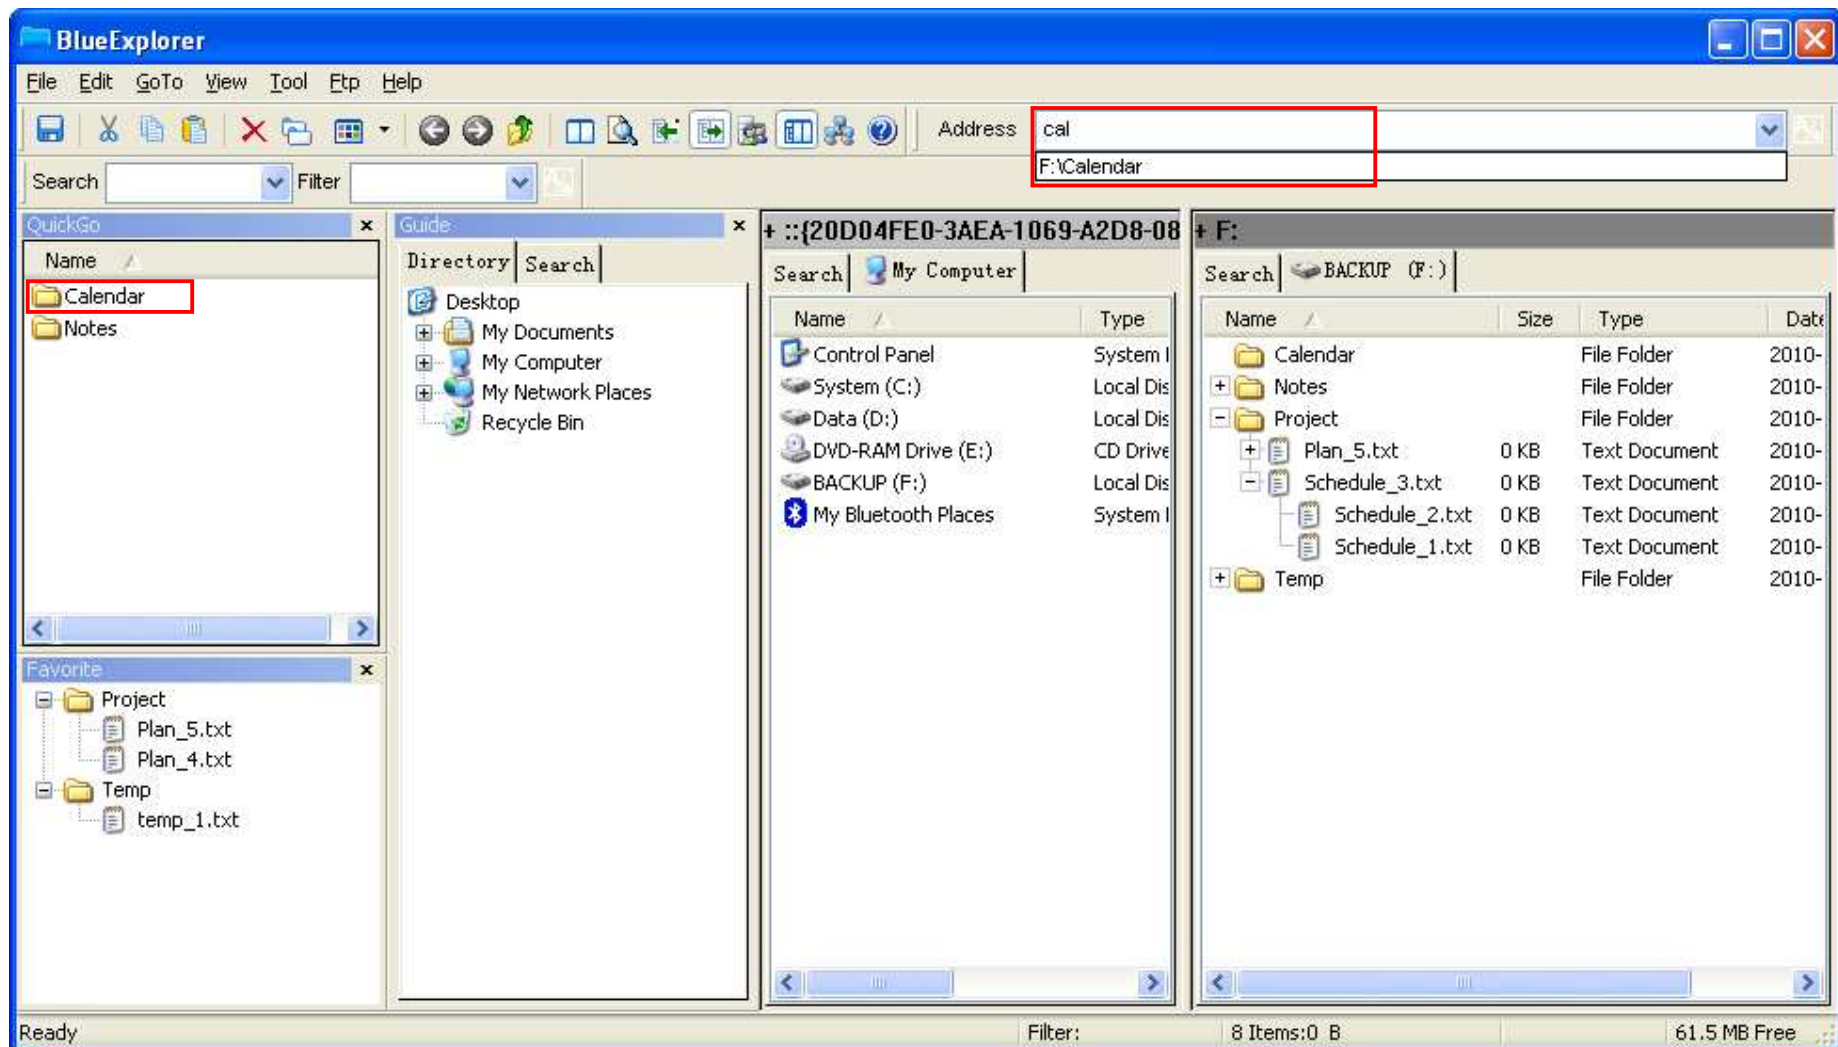

## **Introduction**

# Super View

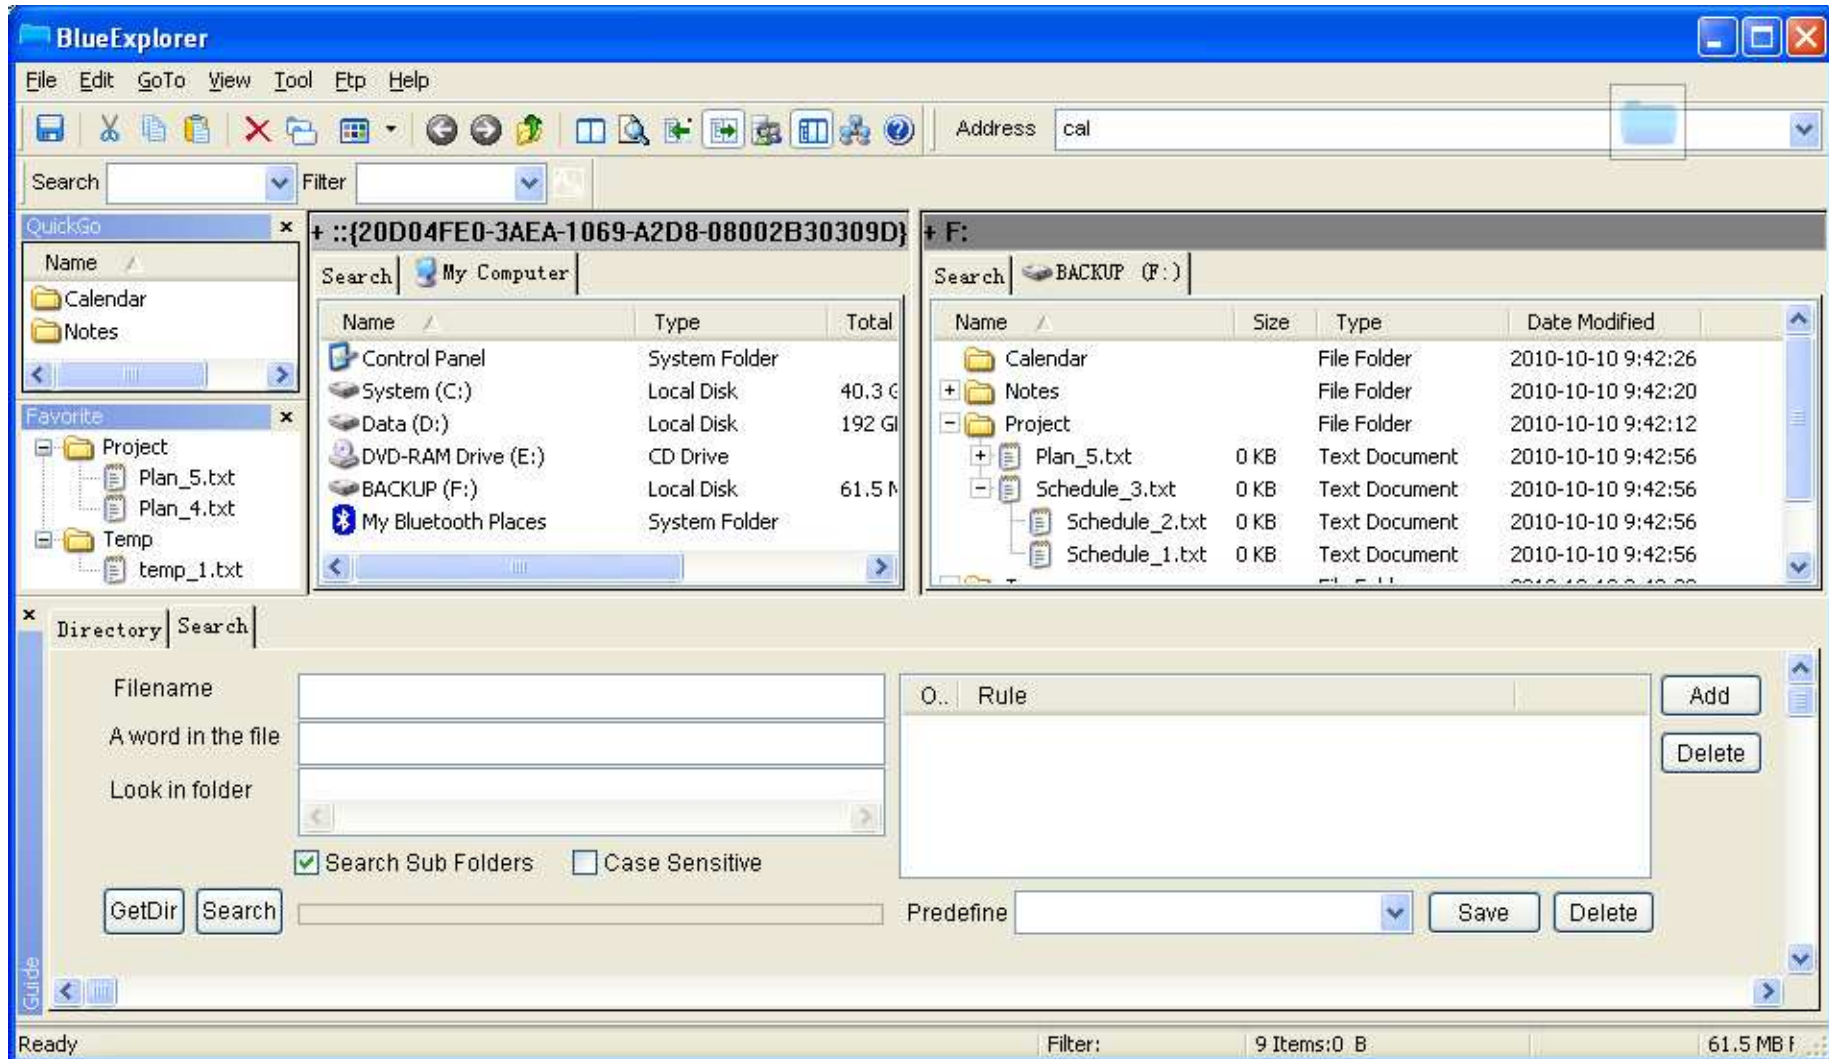

Folders can be collapsed or expanded in the list view.  
Files can be grouped by file name.  
This let you can view files under different folders at same time.

## Quick Go Address Bar

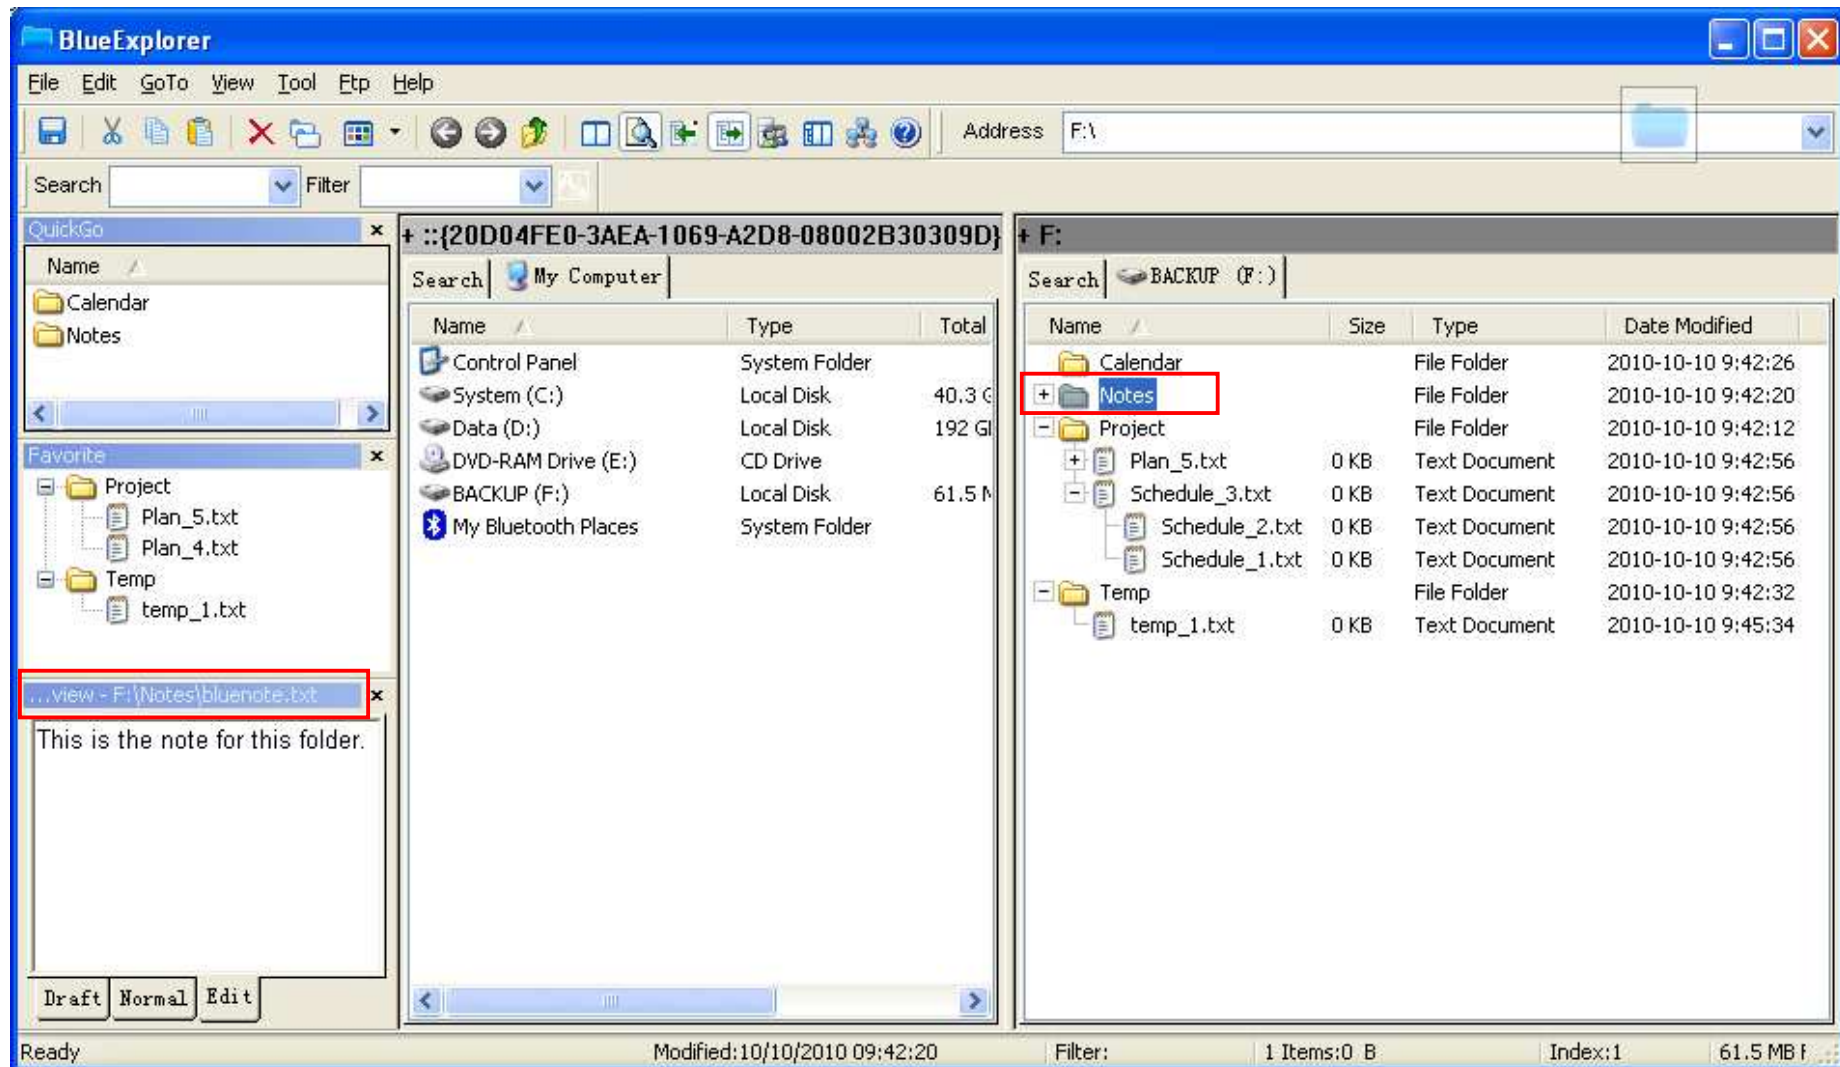

**Add folders of files to the QuickGo tab.  
Input part of the folder you want to go in the address bar.  
By adding frequently used programs to the tab provides a short cut to start your program.**

## Search Tab at the Bottom

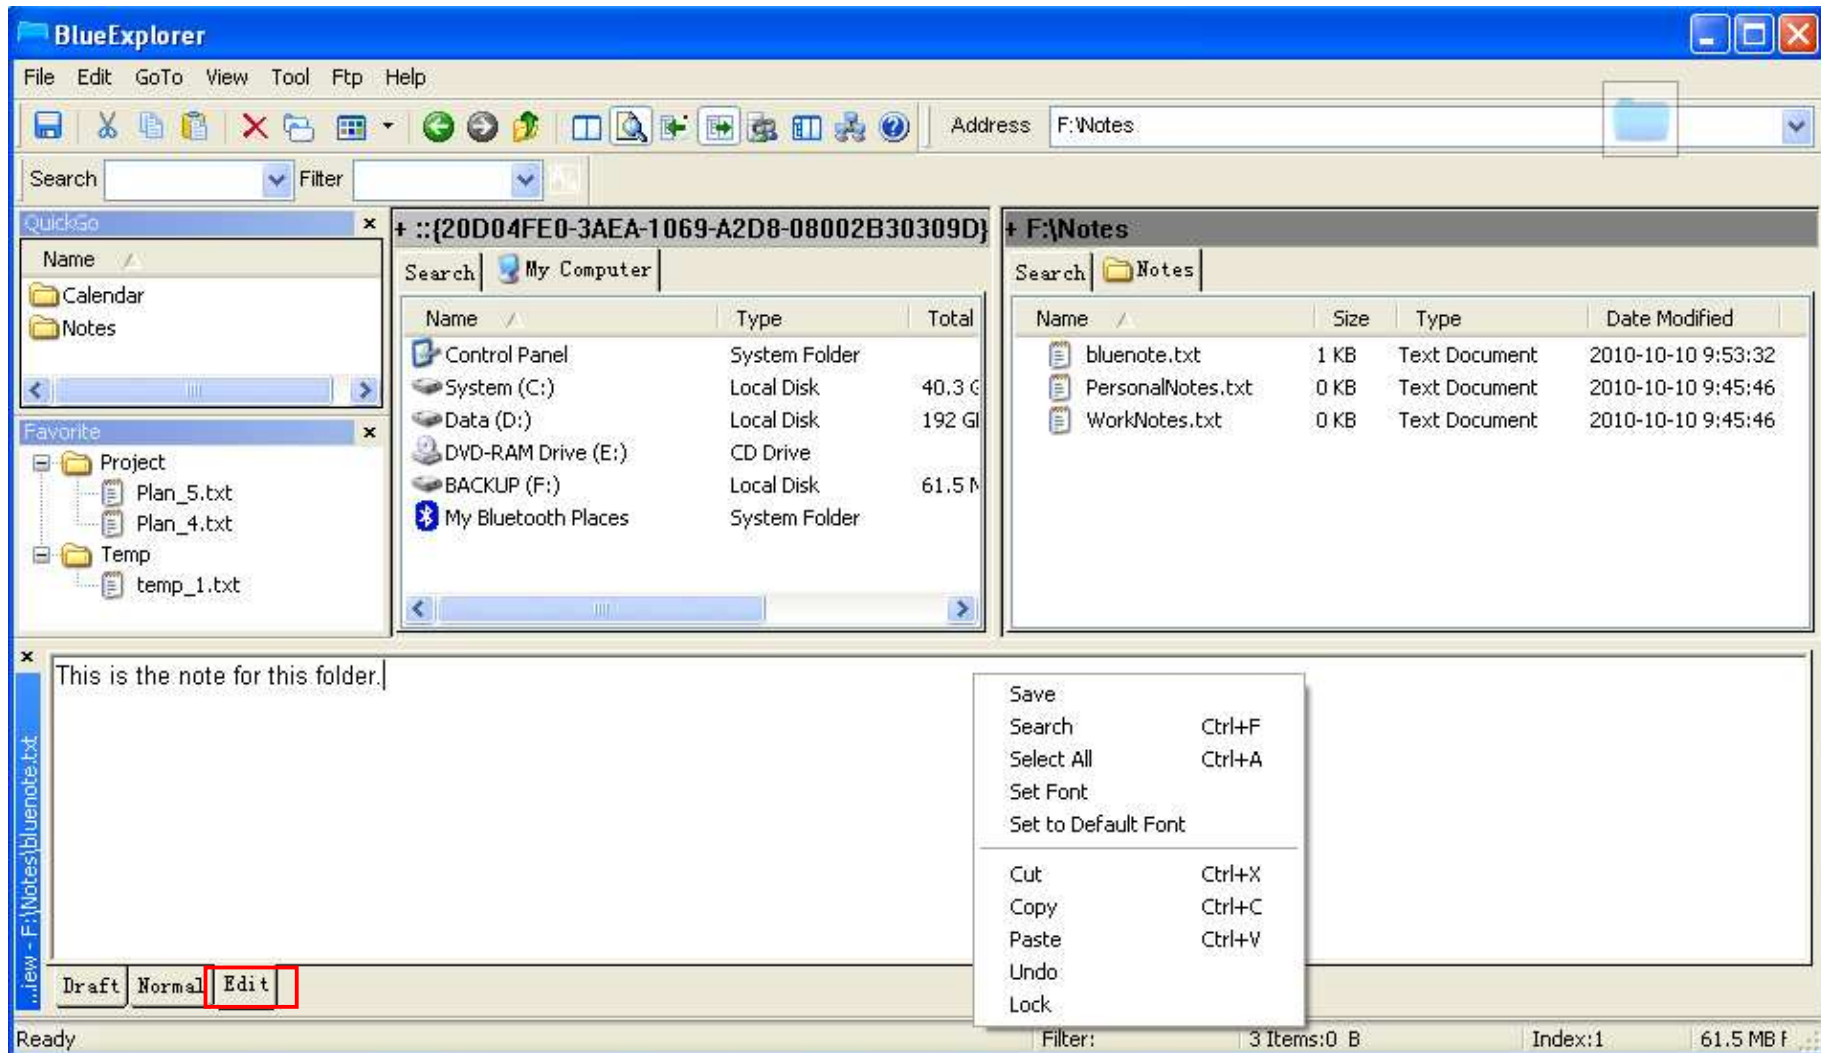

Put the search tab at the bottom to make you have more place to view files.  
Drag the folder to the "Look In Folder", make folder selection easier

## Bluenote.txt Under the Directory to Record the Directory Information <http://www.smartxyz.com>

You can view the file's content by Quick View.  
For a folder, the bluenote.txt under it will be viewed, when you click the folder.  
You can use this feature to record the description of the folder in bluenote.txt and view them later.

# Simple Editor to Edit a File

You can use the Edit tab to edit files.  
This is a simple txt editor.  
You can use context menu to save file and so on.

# Notes

The screenshot displays the Blue Explorer application window. The main pane shows the contents of the F:\Notes folder, with 'PersonalNotes.txt' selected. A secondary pane shows the 'My Computer' view. A note editor window is open in the foreground, displaying the text 'Done - Home work' and 'Done - Buy ...'. The status bar at the bottom indicates 'Ready', 'Modified: 10/10/2010 09:58:20', 'Filter:', '1 Items:38 B', 'Index:1', and '61.5 MB'.
